Adaptive Level 3 Assessment Outline

Audience: Current PSIA-AASI-Rocky Mountain Members holding Adaptive Level 2 certification

Discipline: Adaptive Alpine

Time: 3 days

Credits: 18 CEUs

Setting: On Snow and Online

Changes for 2021/22

- New 3-day format
- MA sessions will be held online on day 1
- A new updated level 3 assessment material document (greater details and information)
- New electronic assessment cards
- New ski tasks

This comprehensive assessment will score candidates to the national standard of a Level 3 Adaptive Alpine Certification. Please refer to Adaptive Alpine level assessment material for more detailed information.

Please exhibit professionalism and support to your fellow candidates and assessors. Respect all directions of group and resort policies, including COVID-19.

Be prepared to be put on the spot and asked questions throughout the assessment.

Pre-requisites: Candidates must attend the three-day Adaptive Level 3 Workshop.
