

PSIA-Rocky Mountain-AASI

[TITLE] *Be creative & descriptive.*

Discipline: *[Alpine, Snowboard, Adaptive, Nordic, Kids, Freestyle]*

Time: *[Set the clinic time based on material, audience, time of day, etc.]*

Setting: *[Outdoor - conditions, terrain, difficulty, etc. Indoor – room set-up, number of participants, tables, chairs, etc.]*

Course Description:

[This is a great way to market to your audience. What will the clinic be about? What will happen in the clinic? Who is your intended audience?]

Recommended Prerequisite Courses:

[e.g. L3 Certification, Technical Foundations, Teaching Theory, Movement Analysis]

Prerequisite skills:

[Required abilities participants must possess prior to taking the clinic]

Course Objectives:

[Audience, Behavior, Condition, Degree, Effect] See “Training by Objective 401” Handout

-
-
-

Sample Activities:

[Come up with creative ways to meet your objectives. What part of your presentation is lecture? What part might be a task for the participants to work through themselves or in small groups? How can you make a technical topic interactive? You can put these in a chronological order.]

-
-
-
-
-

Materials:

[Do you need a laptop, screen and projector for your PowerPoint presentation? Are you providing handouts? Do you need to provide paper, pencils, etc.?.]
