Study Guide/Portfolio

Professionalism

Modification of CAP/MA **Attained** **Did Not Attain**

For each component below, CRMT Candidate needs to give an example for a CS2 candidate and discuss how they would verify their assumptions beyond the information in the video

Cognitive

- Compare and verify observations to Piaget's model
- Identify and verify Learning Style from observations
- Identify and verify Multiple Intelligences from observations

Affective

- Identify and verify Student's needs (Maslow)
- Compare Observations and verify to Kohlberg's Moral Stages
- Identify motivations and sources and verify

Physical

- Accurately Identifies Movements and verifies (Real)
- Accurate Prescription for Change (Ideal for Child)
- Accuracy of Cause and Effect
- Relates Age & Stage Development to Movement Analysis

Modification for CS1 Format

To attain Children's Rocky Mountain Trainer: In each section All Scores Must AVERAGE 4 or higher

This assessment form is for the evaluation of a participant's performance as a children's clinic leader. The three categories are: movement analysis, indoor presentation, and on snow clinic leading. Proficiency in each element is scored using the following scale.

- 1: Essential elements were not observed or not present.
- 2: Essential elements are beginning to appear.
- 3: Essential elements appear, but not with consistency.
- 4: Essential elements appear regularly at a satisfactory level.
- 5: Essential elements appear frequently, above required level.
- 6: Essential elements appear continuously, at a superior level.
