

Snowboard Freestyle Pipe Improvement

Prerequisites: AASI/PSIA membership, Snowboard Level 1 certified.

Snowboard Freestyle Half-pipe Improvement

This two-day clinic is open to all levels and will cover all aspects of riding the half-pipe. This includes introduction through getting comfortable getting more amplitude, grabs, and spins. You will also explore different teaching progressions and movement analysis methods when in the pipe. You will be given lots of personal feedback to improve as well as tricks to teach and coach it.

Please note specific characteristics of features are variable based on what is available from resort to resort. The clinic leader will do their best to choose features that are most appropriate to assessing the skills relative to the standard. AASI-RM reserves the right to cancel this event when weather conditions require it.
