

PSIA-Rocky Mountain-AASI

Telemark Trainer Accreditation Prep Clinic

Course Description:

This clinic is designed specifically to support Telemark Trainers in preparing for Telemark Trainer Accreditation. Participants will receive coaching on skiing skills as they relate to maneuvers and tasks required for Telemark Trainer Accreditation. High-level technical discussions and improving skills as a trainer of other instructors will also be addressed during this in-depth two days. Participants are required to download the Telemark Trainer Accreditation Workbook from the PSIA-RM website prior to attending this clinic. This clinic is *not* a prerequisite for the Telemark Trainer Accreditation, but is highly recommended.

Course Outcomes:

- Improve personal skiing with feedback and video
- Improve movement analysis skills on self and others.
- Learn and share advanced teaching methodology
- Have fun skiing with others at the same level
- Have a clear understanding on what you need to work on to pass Tele T.A. in all categories
- Answering any questions concerning the T.A. process and workbooks

Sample Activities:

- Utilize Video for movement analysis on self and others
- Practice any of the fundamental maneuvers listed on the Telemark T.A. Checklist
- Practice any of the applied/terrain maneuvers and tasks on Telemark T.A. Checklist
- Clinic other participants
- Review Tele T.A. workbook

Materials Needed:

- Standard Ski Area Telemark equipment.
- Telemark Accreditation Workbook (download from PSIA-RM web site)
