

PSIA-Rocky Mountain-AASI

WHAT TO EXPECT AT YOUR EXAM

PSIA-RM Telemark RMT

Information, Thoughts, Things to consider:

- **Your Evaluators are here to help you succeed and learn.....**
- Our greatest strength and learning opportunity is the group. Let's create the most fun and rewarding verification ever, together.
- Please be an active learner: contribute, share, listen, be open-minded, be sensitive to group needs, tell us your needs so you get what you want, and be honest.
- You will receive a Telemark RMT booklet at the beginning of your event. **This booklet is for you to write down your personal feedback**, notes, thoughts, fresh insights, new teaching ideas, etc., and is for you to keep. There will be little or no written feedback on your scorecards.
- Evaluators will be as transparent as possible and will talk with each of you individually during the process to go over your booklets, and if you wish, go over how you are doing

Tentative Agenda

8:30 Check-in. Collect completed RMT Workbooks.

After check-in: introduction, overview of 2 days, and answer questions.

The following will be accomplished during the 2 days:

TEACHING:

First, as a warm-up, your evaluators may ask you to give a short, 2-5 minute presentation. The topic could be one of your choice or one picked by your evaluator.

Then during the 2 day event, you will coach at least one or possibly two teaching segments, 30-45 minutes long, depending on group size and evaluators' discretion.

- 1st session will be coaching relative to the group/individual needs.
- 2nd session topic will be chosen by your evaluators.

SKIING:

We will ski through many if not all the skiing maneuvers and tasks listed in the RMT Workbook. Some tasks/maneuvers will be videoed for review later inside. Receiving personal feedback on your performance of the skiing maneuvers is an essential part of the verification process.

Remember to write your feedback in your certification booklet. Please help us by communicating when and how we can best provide your feedback.

TECHNICAL/MOVEMENT ANALYSIS

You will ride the chair with your evaluators and discuss a technical question. Later, you may be asked more technical questions. In addition, after your teaching segment, your evaluators may ask some technical questions about what you taught.

Movement analysis will take place live and indoors via video. For complete details on the format of this session, please refer to the document entitled Telemark RMT Movement Analysis, listed under exam materials on the Telemark Education Material Download Page at www.psia-rm.org.

OTHER STUFF:

We will be done by 4:30ish each day as long as Mother Nature and lifts cooperate

Evaluators will also return your Workbooks at the end of the event. Exam evaluations will be sent via E-mail from the PSIA-RM office. Please take the time to fill out the Exam evaluation. We value your feedback!
